2022

Project Controls Expo is organised by Project - ControlsOnline.com (PCO) also popularly referred to as "Global Home of Project Controls".

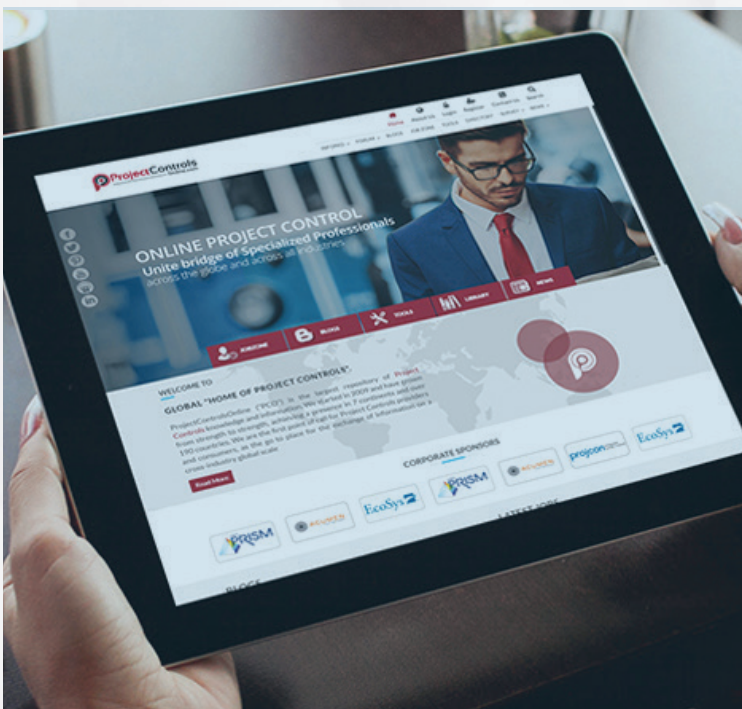

PCO is the largest Project Controls central repository and knowledge base with presence in all 7 continents and over 150 countries. We are first choice of all Project Controls stakeholders (providers and consumers) as a venue for informational exchange across all industries that apply Project Controls principles.

Visit PCO to explore its Premium features such as Video Training Modules and Premium Library along with many other services i.e., White Papers and Presentations, Glossary, Conference Presentations, Free Library, Paperback Literature, Practitioners Guide, Blogs, Tools and JobZone, for the benefit of Project Controls Community.

PCO is managed by a global network of Senior Project Controls professionals who come from a variety of different industries. PCO leadership consists of "Core Team" together with a "Board of Advisors" from around the world. Under this leadership team, PCO boasts an impressive band of subject experts whose expertise spans the full spectrum of Project Controls. We are independent and not biased towards any technology, process, software or company.

PCO is a non-profit organisation and the revenue generated from its features is invested into its maintenance and further enhancement. All the team members are volunteers and working towards achieving our following vision

- To be the first choice of all Project Controls stakeholders -- providers and consumers
- To promote an universal understanding of Project Controls value and processes
- To develop a central repository of data on Project Controls
- To generate awareness and offer expert guidance on Project Controls tools & practices.
- To build the first exclusive network of genuine Project Controls practitioners and their customers.

Hope you enjoy your time at Expo and we always look forward to your suggestions to help us improve.

ABOUT US

Project Controls TV is a revolutionary OTT and streaming service that delivers high quality, curated and convenient video content to the global Project Controls community.

We are the world's first streaming platform dedicated to driving the development of project controls as a profession.

With a subscriber base in every continent, your business will gain direct access to a captive audience of project control professionals from across the globe. As part of the package deal, we aim to showcase your content on home page top banner as seen below offering maximum visibility.
